INTERSTATE COMMERCE COMMISSION  
MANUFACTURING AGREEMENT

MANUFACTURING AGREEMENT dated as of October 27, 1975, between BETHLEHEM STEEL CORPORATION (hereinafter called the Manufacturer) and TRAILER TRAIN COMPANY (hereinafter called the Company).

WHEREAS the Manufacturer agrees to construct, sell and deliver to the Company and the Company agrees to purchase the units of new, standard gauge railroad equipment (hereinafter referred to individually as a Unit and collectively as Units or the Equipment) described in Item 1 of Annex A attached hereto and described in Annex A to any Manufacturing Agreement Supplement substantially in the form of Annex B hereto (Annex A to any such Manufacturing Agreement Supplement being hereinafter included within the meaning of Annex A hereto);

WHEREAS the Company will assign certain of its rights hereunder pursuant to an Assignment of Manufacturing Agreement (hereinafter called the Assignment) in substantially the form of Annex C hereto to United States Trust Company of New York, as trustee (hereinafter called the Lessor) which will perform pursuant to the Assignment certain of the covenants and obligations of the Company hereunder, and which will enter into an Equipment Trust Agreement (hereinafter called the Equipment Trust Agreement) with Mercantile-Safe Deposit and Trust Company, as trustee (hereinafter called the Trustee) substantially in the form of Exhibit B to the Participation Agreement (hereinafter called the Participation Agreement) among the Company, General Electric Credit Corporation, the Trustee and the other parties named in Schedule 1 thereto;

WHEREAS the Trustee and the Lessor will pay the Purchase Price for the Equipment delivered and accepted pursuant to the terms of the Assignment (hereinafter sometimes called the Assigned Equipment) on the Closing Date and the Second Closing Date (Purchase Price, Closing Date and Second Closing Date being hereinafter defined); and

WHEREAS the Company will pay the Purchase Price for any Equipment not delivered to and accepted by the Lessor and the Trustee pursuant to the Assignment and the Equipment Trust Agreement and will perform its obligations hereunder not specifically assigned to the Lessor,

NOW, THEREFORE, in consideration of the mutual promises, covenants and agreements hereinafter set forth, the parties hereto do hereby agree as follows:

ARTICLE 1. Construction and Sale. Subject to the terms and conditions hereinafter set forth, the Manufacturer will construct the Equipment and will sell and deliver the Equipment as hereinbelow provided, and the Company will pay or cause the Trustee or Lessor to pay to the Manufacturer the Purchase Price of the Equipment, each Unit of which will be constructed in accordance with the specifications referred to in Item 1 of Annex A hereto and in accordance with such modifications thereof as may have been agreed upon in writing by the Manufacturer and the Company (which specifications and modifications, if any, are hereinafter called the Specifications) and will, at or before delivery thereof to the Company (or to the Company as agent of the Trustee or Lessor) pursuant to Article 2 hereof, have the following ownership markings stenciled on each side thereof in a conspicuous place in letters not less than one inch in height:

"OWNED BY A BANK OR TRUST COMPANY UNDER A SECURITY  
AGREEMENT FILED UNDER THE INTERSTATE  
COMMERCE ACT, SECTION 20c"

The Manufacturer agrees that the design, quality and component parts of the Equipment will conform to all Federal Railroad Administration requirements and specifications and to all standards recommended by the Association of American Railroads reasonably interpreted as being applicable to new railroad equipment of the character of such Units of the Equipment as of the date of delivery thereof; provided, however, that if any such requirements, specifications or standards shall have been promulgated or amended after the respective dates on which the Equipment was ordered, the base price or prices of the Equipment affected thereby may be appropriately adjusted by written agreement of the Manufacturer and the Company.

ARTICLE 2. Delivery. The Manufacturer will deliver the Equipment to the Company, freight charges, if any, prepaid, at such point or points within the United States of America as shall be determined by the mutual agreement of the Manufacturer and the Company and in accordance with the time of delivery schedule set forth in Item 1 of Annex A hereto; provided, however, that no Unit of the Equipment shall be delivered under this Agreement until this Agreement and

~~the Assignment~~ shall have been filed and recorded with the Interstate Commerce Commission in accordance with Section 20c of the Interstate Commerce Act and the Manufacturer, the Lessor and the Trustee shall have received an opinion of counsel for the Company, satisfactory in form and substance to the Manufacturer, the Lessor and the Trustee, to the effect that such filings have been duly accomplished.

The Manufacturer represents and warrants that at the time of deliveries of the Equipment it will be new railroad equipment, and that, to the best of its knowledge, no amortization or depreciation will have been claimed by any person with respect thereto.

The Manufacturer's obligation as to time of delivery is subject to delays resulting from causes beyond the Manufacturer's reasonable control, including, but not limited to, acts of God, acts of government such as embargoes, priorities and allocations, war or war conditions, riot or civil commotion, sabotage, strikes, labor shortages, differences with workmen, accidents, fire, flood, explosion, damage to plant, equipment or facilities or delays in receiving necessary materials or delays of carriers or subcontractors.

Notwithstanding the preceding provisions of this Article 2, any Unit of the Equipment not delivered and accepted on or before the date set forth in Item 2 of Annex A hereto shall be excluded from this Agreement and not included in the terms "Equipment" or "Units" as used in this Agreement, it being understood that no Unit of the Assigned Equipment shall be delivered or accepted under the Assignment after December 29, 1975, and that Equipment delivered thereafter (or otherwise excluded from delivery and acceptance under the Assignment) and prior to such date in Annex A hereto shall be included in this Agreement and settled for by the Company as non-Assigned Equipment. In the event of any exclusion of Equipment from this Agreement the Manufacturer and the Company shall execute an agreement supplemental hereto limiting this Agreement to the Equipment theretofore delivered, accepted and settled for hereunder. If the Manufacturer's failure to deliver the Units of the Equipment so excluded from this Agreement resulted from one or more of the causes set forth in the immediately preceding paragraph, a separate agreement shall be entered into between the Manufacturer and the Company providing for the purchase of such excluded Equipment by the Company on the terms herein specified, payment to be made in cash

after delivery of such excluded Equipment either directly or by means of a conditional sale, equipment trust or such other appropriate method of financing the purchase as the Company and the Manufacturer shall mutually determine.

The Equipment shall be subject to inspection and approval prior to delivery by inspectors or other representatives of the Company, and the Manufacturer shall grant to any such inspector or other authorized representative reasonable access to its plant. From time to time upon the completion of the construction of each Unit or a number of Units of the Equipment, each Unit shall thereupon be presented to an inspector or other authorized representative of the Company for inspection at the Manufacturer's plant and, if each such Unit conforms to the Specifications and the other requirements, specifications and standards set forth or referred to in Article 1 hereof, such inspector or authorized representative shall promptly execute and deliver to the Manufacturer, in such number of counterparts or copies as may be reasonably requested, a certificate of acceptance (hereinafter called a Certificate of Acceptance) substantially in the form of Annex D hereto stating that such Unit or Units have been inspected and accepted on behalf of the Company and are marked in accordance with Article 1 hereof; provided, however, that the Manufacturer shall not thereby be relieved of its warranty contained in Article 9 hereof.

On acceptance of each of the Units of the Equipment, pursuant to this Article 2 on behalf of the Company as aforesaid, the Company assumes with respect thereto the responsibility and risk of loss or damage.

ARTICLE 3. Purchase Price and Payment. The base price per Unit of the Equipment is set forth in Item 1 of Annex A hereto. Such base price is subject to such increase or decrease as may be or has been agreed to by the Manufacturer and the Company including a decrease to the extent contemplated by Article 5, if any. The term "Purchase Price" as used herein shall mean the base price or prices as so increased or decreased plus freight and storage charges, if any, and any applicable sales taxes.

The Assigned Equipment shall be settled for pursuant to Article 4(a) hereof on December 29, 1975 (herein called the Closing Date); provided, however, that if any Purchaser (as defined in the Participation Agreement) shall have failed to make its purchase of a Trust Certificate (as defined in the

Equipment Trust Agreement) on the Closing Date, then (a) on the Closing Date Assigned Equipment having an aggregate Purchase Price equal to the product of (i) the amount of Deposited Funds (as defined in the Equipment Trust Agreement) held by the Trustee on such date divided by (ii) 62.5% shall be settled for and (b) the balance of the Assigned Equipment shall be settled for on such other date, not later than April 15, 1976, as may be designated by the Lessor to the Manufacturer on not less than seven days' prior written notice (herein called the Second Closing Date and the Equipment settled for on the Closing Date and the Second Closing Date, respectively, being hereinafter collectively called the Group). It is understood and agreed by the Lessor that it is solely liable to provide any balance of the Purchase Price payable with respect to the Assigned Equipment pursuant to the Assignment on the Second Closing Date; provided, further, that such liability for payment shall be reduced by the amount of any funds received by the Trustee from the sale of a Trust Certificate, in a principal amount not more than the principal amount of the Trust Certificate which any Purchaser shall have failed to purchase on the Closing Date, to any substituted institutional investor which shall become a signatory to the Participation Agreement as a Purchaser after the Closing Date and prior to the Second Closing Date, the Assignor or the Owner having the right to obtain such substituted institutional investor.

All Equipment which the Lessor is not obligated to purchase pursuant to the Assignment, if any, shall be settled for on the date specified in Item 3 of Annex A hereto or such other date specified by the Company on not less than seven days' prior written notice, but in no event shall such date be later than six months from the date of delivery and acceptance hereunder of the first Unit of the Supplemental Group (such settlement date being hereinafter called the Supplemental Closing Date and the Equipment settled for on the Supplemental Closing Date being hereinafter called the Supplemental Group).

Subject to the provisions of Article 4 hereof and to the Assignment, the Company hereby promises to pay or cause to be paid in cash to the Manufacturer at such place as the Manufacturer shall designate, (a) on the Closing Date or the Second Closing Date, as the case may be, an amount equal to the Purchase Price of all units of the Group to be purchased on such date as set forth in the invoices therefor and (b) within five business days after

the Closing Date or the Second Closing Date, as the case may be, if the Closing Date or the Second Closing Date, as the case may be, is later than the thirtieth day following the date of delivery and acceptance of any Unit pursuant to Article 2 hereof, an amount equal to interest (computed on the basis of a 360-day year of twelve 30-day months) on the Purchase Price of such Unit from such 30th day after the date of delivery and acceptance to the Closing Date or the Second Closing Date, as the case may be, at the Prime Rate (as hereinafter defined). Subject to the provisions of Article 4 hereof, the Company hereby further promises to pay or cause to be paid in cash to the Manufacturer at such place as the Manufacturer may designate, (1) on the Supplemental Closing Date, an amount equal to the Purchase Price of all Units of the Supplemental Group as set forth in the invoices therefor and (2) within five business days of such Supplemental Closing Date if later than the 30th day following the date of delivery and acceptance of a Unit pursuant to Article 2 hereof, an amount equal to interest (computed as aforesaid) on the Purchase Price of such Unit from such 30th day after the date of delivery and acceptance to the Supplemental Closing Date at the Prime Rate. Prime Rate as used herein shall mean the rate per annum equal to the rate which Manufacturers Hanover Trust Company, New York, New York, charges for 90-day loans to borrowers of the highest credit standing for the period such interest is payable; provided, however, that changes in such rate occurring during the ten business days preceding the Supplemental Closing Date, the Closing Date or the Second Closing Date, as the case may be, shall be disregarded.

If the Manufacturer shall not receive on the Supplemental Closing Date the amounts payable to the Manufacturer pursuant to the third paragraph of this Article 3, the Manufacturer will promptly notify the Company of such event and, if such amounts shall not have been previously paid and the Manufacturer shall have otherwise complied with the conditions of this Agreement to entitle the Manufacturer to receive payment hereunder, the Company will, not later than 60 days after the Supplemental Closing Date, make payment to the Manufacturer of such amount, together with interest at 2% above the Prime Rate on the Purchase Price from such Supplemental Closing Date to the date of payment by the Company. If the Company shall not make payment as aforesaid, the Company will execute such instruments and take such other action as shall be reasonably requested by the Manufacturer to vest in the Manufacturer or its designee full title to

such Equipment, whereupon the Manufacturer may, at its election, terminate this Agreement, and sell, lease, retain or otherwise dispose of such Equipment. The Manufacturer may at any time take such other actions and exercise such other remedies as may be permitted by law or by this Agreement; provided, however, that the Company shall not thereby be relieved of its obligations to make payment to the Manufacturer as aforesaid.

All payments provided for in this Agreement shall be made in such coin or currency of the United States of America as at the time of payment shall be legal tender for the payment of public and private debts.

The Manufacturer shall and hereby does retain a security interest in the Equipment until the Manufacturer shall have been paid the Purchase Price in respect of the Equipment pursuant to this Article 3, notwithstanding the delivery of the Equipment to and the possession and use thereof by the Company; provided, however, that no such security interest shall attach to any Assigned Equipment accepted under the Assignment and as to which a bill of sale was delivered by the Manufacturer to the Owner-Trustee or its agent. Except as otherwise provided in this Agreement, upon payment to the Manufacturer of the Purchase Price (a) such security interest shall be duly transferred and assigned by the bill or bills of sale executed and delivered by the Manufacturer pursuant to Article 4 hereof and (b) any and all claims, liens, security interests or other encumbrances of any nature in favor of the Manufacturer with respect to the Equipment shall forthwith cease and terminate; provided, however, that the Company shall not thereby be relieved of any obligation to make payment to the Manufacturer of interest payable in respect of such Purchase Price as provided in this Article 3.

The Company agrees to save, indemnify and keep harmless the Manufacturer from and against all losses, damages, injuries, liabilities, claims, and demands whatsoever and expenses in connection therewith, including counsel fees (except due to any act or omission of Manufacturer, as manufacturer, and except for any failure of the Lessor to pay for the Assigned Equipment in accordance with the provisions of the Assignment and this Agreement), arising out of retention by the Manufacturer of a security interest to the Equipment or out of the use and operation thereof by the Company during the period when the Manufacturer retains a security

interest therein. This covenant of indemnity shall continue in full force and effect notwithstanding the full payment of the indebtedness in respect of the Purchase Price and the conveyance of the Equipment, as provided herein, or the termination of this Agreement in any manner whatsoever.

The Company will bear the risk of, and shall not be released from its obligations hereunder in the event of, any damage to or the destruction or loss of any Unit of or all the Equipment; provided, however, that the Manufacturer shall not be relieved from its warranty under Article 9 hereof.

ARTICLE 4. Conditions to Closing. (a) With respect to Equipment settled for as Assigned Equipment pursuant to the Assignment, on the Closing Date and the Second Closing Date the Lessor shall pay, or cause to be paid out of the proceeds of the sale of Trust Certificates and funds received from the Owner, to the Manufacturer the amount required to be paid pursuant to the third paragraph of Article 3 hereof with respect to the Assigned Equipment then being settled for provided that there shall have been delivered to the Lessor and the Trustee, on or prior to the Closing Date, or the Second Closing Date, as the case may be, the following documents in such number of counterparts or copies as may reasonably be requested in form and substance satisfactory to them:

(i) a certificate of an officer of the Manufacturer dated the Closing Date or the Second Closing Date, as the case may be, stating that (A) the Assigned Equipment described and specified therein by numbers has been delivered and accepted on or prior to the Closing Date or the Second Closing Date, as the case may be, and has been marked in accordance with the provisions of Article I of this Agreement, (B) such Assigned Equipment is new standard gauge railroad equipment first put into service no earlier than the date of delivery and acceptance by the Company, including any accessions thereto placed on the Assigned Equipment by the Manufacturer and (C) the aggregate Purchase Price of all Assigned Equipment then or theretofore invoiced by the Manufacturer in accordance with the Assignment is not in excess of \$5,420,928;

(ii) a bill or bills of sale from the Manufacturer transferring all right, title and interest of the Manufacturer in and to such Equipment to the Lessor, war-

granting to the Trustee, the Owner-Trustee and the Company that at the time of delivery of such Equipment to the Company, the Manufacturer had legal title to the Equipment described therein and good and lawful right to sell such Equipment and that title to such Equipment was, at the time of such delivery, free from all claims, liens, security interests and other encumbrances of any nature except as created by this Agreement, the Equipment Trust Agreement and the Assignment and except for the rights of the Lessee under the Lease;

(iii) an opinion of counsel for the Manufacturer to the effect that (A) the Manufacturer is a duly organized and existing corporation in good standing under the laws of the state of its incorporation, (B) this Agreement and the Assignment have been duly authorized, executed and delivered by the Manufacturer and, assuming the due authorization, execution and delivery by the Company, and the Lessor in the case of the Assignment, are legal and valid instruments binding upon and enforceable against the Manufacturer in accordance with their respective terms, (C) the Units of the Assigned Equipment, at the time of delivery thereof, were free of all claims, liens, security interests and other encumbrances of any nature except as created by this Agreement and the Assignment, the Equipment Trust Agreement or the Lease and (D) such bill or bills of sale have been duly authorized, executed and delivered by the Manufacturer and are valid and effective to transfer all right, title and interest of the Manufacturer in and to such Equipment, free of all claims, liens, security interests or other encumbrances of any nature of or arising from, through or under the Manufacturer, to the Lessor; and

(iv) the invoice or invoices with respect to the Equipment in the Group from the Manufacturer to the Lessor describing the Units or Equipment in the Group and any special devices the cost of which is included in the Purchase Price of any Unit.

Counsel may qualify any opinion specified above to the effect that any agreement is enforceable against the parties thereto in accordance with its terms by a general reference to limitations as to enforceability imposed by bankruptcy, insolvency, reorganization, moratorium or other similar laws affecting the enforcement of creditors' rights generally.

(b) With respect to Equipment settled for hereunder and not as Assigned Equipment pursuant to clause (a) hereof, on the Supplemental Closing Date the Company shall pay or cause to be paid to the Manufacturer the amount required to be paid pursuant to the third paragraph of Article 3 hereof with respect to the Equipment then being settled for provided that there shall have been delivered to the Company, on or prior to the Supplemental Closing Date, the following documents in such number of counterparts or copies as may reasonably be requested in form and substance satisfactory to it:

(i) a bill or bills of sale from the Manufacturer transferring all its right, title and interest in and to the Equipment in the Supplemental Group to the Company and warranting to the Company that at the time of delivery of each Unit of Equipment in the Supplemental Group the Manufacturer had legal title to such unit and good and lawful right to sell the same and title to such unit was, at the time of such delivery, free from all claims, liens, security interests and other encumbrances of any nature except as created by this Agreement, any assignment thereof, any lease of the Equipment to which the Company is a party or any equipment trust agreement entered into to finance the purchase of the Equipment by the Company or the Lessor;

(ii) the invoice or invoices with respect to the Equipment in the Supplemental Group from the Manufacturer to the Company describing the Units of Equipment in the Supplemental Group and any special devices the cost of which is included in the Purchase Price of any Unit;

(iii) an opinion of counsel for the Manufacturer, dated the Supplemental Closing Date, stating that (A) the Manufacturer is a duly organized and existing corporation in good standing under the laws of the state of its incorporation, (B) this Agreement has been duly authorized, executed and delivered by the Manufacturer and, assuming the due authorization, execution and delivery by the Company, is a legal and valid instrument binding upon and enforceable against the Manufacturer in accordance with its terms, (C) the Units of the Equipment in the Supplemental Group, at the time of delivery thereof pursuant to Article 2 hereof, were free of all claims, liens, security interests and other

encumbrances of any nature except as created by this Agreement, any assignment thereof, any lease of the Equipment to which the Company is a party or any equipment trust agreement entered into to finance the purchase of the Equipment by the Company or the Lessor and (D) such bill or bills of sale have been duly authorized, executed and delivered by the Manufacturer and are valid and effective to transfer all right, title and interest of the Manufacturer in and to the Equipment in the Supplemental Group to the Company free of all claims, liens, security interests or other encumbrances of any nature of or arising from, through or under the Manufacturer; and

(iv) such other documents as the Company may reasonably request.

In the event that any part of the rights and obligations of the Company under this Agreement shall have been assigned other than pursuant to the Assignment in respect of any Unit of Equipment other than the Assigned Equipment, the documents hereinabove in this subsection (b) listed shall be addressed to, and the representations, covenants and warranties herein and therein contained shall inure to the benefit of, such parties to such other assignment as the Company shall direct, or as shall be appropriate in the circumstances. Counsel may qualify the opinion specified above to the effect that this Agreement is a legal and valid instrument binding upon and enforceable against the Manufacturer in accordance with its terms by a general reference to limitations as to enforceability imposed by bankruptcy, insolvency, reorganization, moratorium or other similar laws affecting the enforcement of creditors' rights generally.

ARTICLE 5. Price Reduction. In the event that, prior to the delivery and acceptance of any Unit of the Equipment, any lower base prices than those set forth in Item 1 of Annex A to this Agreement or in any supplement entered into pursuant to this Agreement are invoiced by the Manufacturer on railroad equipment substantially identical in type to any Unit of the Equipment, the Manufacturer agrees to make a corresponding reduction in the base price of any such Unit of the Equipment delivered pursuant to Article 2 of this Agreement on or after the effective date of said other price reduction.

ARTICLE 6. Maintenance and Repair. So long as the Manufacturer retains a security interest in the Units pursuant to Article 3, the Company agrees at its own cost and expense to maintain and keep each Unit in good order and repair, reasonable wear and tear excepted.

ARTICLE 7. Loss or Destruction. In the event of loss or destruction of or irreparable damage to any of the Units from any cause whatsoever during the time the Manufacturer retains a security interest pursuant to Article 3, the Company shall promptly and fully inform the Manufacturer in regard to such loss, destruction or damage, and the Company shall pay promptly to the Manufacturer an amount equal to the Purchase Price (as defined in Article 3 hereof) of each Unit so lost, destroyed or irreparably damaged, plus interest on the Purchase Price to the date of payment computed as set forth in Article 3.

ARTICLE 8. Compliance with Laws, Rules and Regulations. So long as the Manufacturer retains a security interest in the Units pursuant to Article 3, the Company agrees at all times to keep the Units free and clear of all taxes, assessments, liens, and encumbrances, and covenants that the Units at all times hereunder will be maintained, used and operated under and in lawful compliance with the laws, rules and regulations to which they may be subject in any local, state or federal jurisdiction. Any sums of money that may be paid by the Manufacturer at its option by way of release, discharge or otherwise, of any of the foregoing, shall be promptly reimbursed and paid to the Manufacturer by the Company on demand as an additional part of the obligations herein with interest thereon at the rate of 2% above the Prime Rate from the date of payment by the Manufacturer.

The Company, however, may withhold any such payment so long as it shall in good faith and by appropriate legal proceedings contest the validity thereof in any reasonable manner and if such withholding does not, in the judgment of the Manufacturer, affect the Manufacturer's security interest in any of the Units.

ARTICLE 9. Manufacturer's Warranty of Materials and Workmanship. The Manufacturer warrants that the Units of the Equipment will be built in accordance with the Specifications and with the other requirements, specifications and standards set forth or referred to in Article 1 above and warrants that the Equipment will be free from defects

in material (except as to specialties incorporated therein which were specified or supplied by the Company and not manufactured by the Manufacturer) and workmanship or design (except as to designs specified by the Company and not developed or purported to be developed by the Manufacturer) under normal use and service; the Manufacturer's obligation under this paragraph being limited to making good at its plant (or at the option of the Manufacturer at a place designated by the Manufacturer and agreed upon by the Company) any part or parts of any Unit of Equipment which shall be returned to the Manufacturer within one year after delivery of such Unit, or as to which written notice of such defect has been given by the Company to the Manufacturer within one year after delivery of such Unit and which part or parts are returned within 90 days after such notice to the Manufacturer, provided that the Manufacturer's examination shall disclose to its reasonable satisfaction such part or parts to have been thus defective. THIS WARRANTY IS EXPRESSLY IN LIEU OF ALL OTHER WARRANTIES, EXPRESSED OR IMPLIED, INCLUDING ANY IMPLIED WARRANTY OF MERCHANTABILITY OR FITNESS FOR A PARTICULAR PURPOSE, AND OF ALL OTHER OBLIGATIONS OR LIABILITIES ON THE PART OF THE MANUFACTURER, EXCEPT FOR ITS OBLIGATIONS UNDER ARTICLES 1, 2, 3 and 10 OF THIS AGREEMENT. The Manufacturer neither assumes nor authorizes any person to assume for it any other liability in connection with the construction and delivery of the Equipment, except as aforesaid.

The Manufacturer agrees to use its best efforts to include, as a condition of its purchase order with the vendor of any specialty purchased by the Manufacturer for incorporation in the Equipment and not warranted hereunder, an agreement by such vendor to the effect that all warranty agreements and representations, if any, made by such vendor with respect to such specialty may be enforced by the Company, in the Company's own name, by the Manufacturer, in the Manufacturer's own name, or by the Manufacturer and the Company jointly; provided, however, that if any vendor does not accept such an agreement and the Manufacturer so notifies the Company, the Manufacturer shall have no obligation to the Company under this sentence if such an agreement is not contained in any such purchase order. The Manufacturer and the Company further agree that, whether or not such an agreement is contained in any such purchase order, the Company as well as the Manufacturer may to the extent permitted by law take and prosecute claims against vendors of specialties purchased by the Manufacturer for incorporation

in the Equipment and not warranted hereunder for the breach of any warranty by the vendors with respect to such specialties. The Manufacturer and the Company each agree to notify the other prior to the assertion of any claim by them against any such vendors of specialties. If the Manufacturer determines that it has no interest in any such claim asserted by the Company, the Manufacturer agrees to assign to the Company, solely for the purpose of making and prosecuting any such claim, all of the rights which the Manufacturer has against such vendor for the breach of warranty or other representation respecting the Equipment.

The Manufacturer further agrees that neither the inspection as provided in Article 2 of this Agreement, nor any examination or acceptance of any Units of the Equipment as provided in said Article 2, shall be deemed a waiver or modification by the Company of any of its rights under this Article 9.

It is further understood and agreed that the word "design(s)" as used herein and in Article 10 and the word "specialties" as used herein shall be deemed to include articles, materials, systems, formulae and processes.

ARTICLE 10. Patent Indemnities. Except in case of designs, processes or combinations specified by the Company and not developed or purported to be developed by the Manufacturer, and articles and materials specified by the Company and not manufactured by the Manufacturer, the Manufacturer agrees to indemnify, protect and hold harmless the Company, and the Trustee, the holders of the equipment trust certificates issued under the Equipment Trust Agreement and the Owner and the Owner-Trustee, as third party beneficiaries, from and against any and all liability, claims, demands, costs, charges and expenses, including royalty payments and counsel fees, in any manner imposed upon or accruing against the Company, the Trustee, such holders, the Owner or the Owner-Trustee because of the use in or about the construction or operation of the Equipment, or any unit thereof, of any design, process, combination, article or material infringing or claimed to infringe on any patent or other right. The Company likewise will indemnify, protect and hold harmless the Manufacturer from and against any and all liability, claims, demands, costs, charges and expenses, including royalty payments and counsel fees, in any manner imposed upon or accruing against the Manufacturer because of the use in or about the construction or operation

of the Equipment, or any unit thereof, of any design, process or combination specified by the Company and not developed or purported to be developed by the Manufacturer, or article or material specified by the Company and not manufactured by the Manufacturer, which infringes or is claimed to infringe on any patent or other right. The Manufacturer agrees to and hereby does, to the extent legally possible without impairing any claim, right or cause of action hereinafter referred to, transfer, assign, set over and deliver to the Company every claim, right and cause of action which the Manufacturer has or hereafter shall have against the originator or seller or sellers of any design, process, combination, article or material specified by the Company and used by the Manufacturer in or about the construction or operation of the Equipment, or any unit thereof, on the ground that any such design, process, combination, article or material or operation thereof infringes or is claimed to infringe on any patent or other right, and the Manufacturer further agrees to execute and deliver to the Company all and every such further assurances as may be reasonably requested by them more fully to effectuate the assignment, transfer and delivery of every such claim, right and cause of action. The Company will give notice to the Manufacturer of any claim known to the Company on the basis of which liability may be charged against the Manufacturer hereunder and the Company will give notice to the Manufacturer of any claim known to the Company, as the case may be, on the basis of which liability may be charged against the Manufacturer hereunder.

ARTICLE 11. Taxes. All payments to be made or caused to be made by the Company hereunder will be free of expense to the Manufacturer with respect to the amount of any local, state or federal taxes (other than net income taxes, gross receipts taxes [except gross receipts taxes in the nature of or in lieu of sales taxes], franchise taxes measured by net income based on such receipts, excess profit taxes and similar taxes), assessments, license fees, charges, fines and penalties, all of which the Company, as the case may be, assumes and agrees to pay on demand in addition to the Purchase Price of the Equipment.

ARTICLE 12. Notice. Any notice hereunder to the parties designated below shall be deemed to be properly served if delivered or mailed to it at the following specified addresses:

(a) to the Company, at 300 South Wacker Drive, Chicago, Illinois 60606, attention of the Vice President-Finance and Treasurer.

(b) to the Manufacturer, at Bethlehem, Pennsylvania 18016, attention of Manager of Sales, Railroad Products.

or at such other addresses as may have been furnished in writing by such party to the other party to this Agreement.

ARTICLE 13. Assignments by the Manufacturer. All or any of the rights, benefits or advantages of the Manufacturer under this Agreement, including the right to receive the Purchase Price of all Units of the Equipment and interest thereon, if any, may be assigned by the Manufacturer and reassigned by any assignee at any time or from time to time; provided, however, that no such assignment shall subject any such assignee to any of the Manufacturer's guarantees, warranties, indemnities or other obligations contained in this Agreement or relieve the Manufacturer or a successor or successors to its manufacturing property and business from any of its obligations to construct and deliver the Equipment in accordance with the Specifications or to respond to its guarantees, warranties, indemnities or other obligations whether contained herein or created by law, or relieve the Company of its obligations to the Manufacturer under this Agreement, which, according to their terms and context, are intended to survive an assignment; provided, however, that except as otherwise provided in this Agreement any security interest in each Group of the Equipment assigned hereunder shall cease and terminate upon payment to the Manufacturer or assignee, as applicable, by the Company of the amounts payable with respect to such Group pursuant to Article 3 and such assigned security interest shall be merged into the security interest in the Equipment create by any Equipment Trust Agreement in favor of a Trustee, or if an Equipment Trust Agreement has not then been executed such interest shall forthwith cease and terminate upon such payment to the Manufacturer and the Manufacturer and such assignee will execute and deliver all documents and instruments as the Company may reasonably request, including without limitation an instrument for recordation with the Interstate Commerce Commission evidencing such cessation and termination.

Upon any such assignment, either the assignor or the assignee shall give written notice to the Company,

together with a counterpart or copy of such assignment, stating the identity and post office address of the assignee (if not otherwise stated in the assignment), and such assignee shall by virtue of such assignment acquire all of the Manufacturer's right, title and interest in and to the rights, benefits and advantages of the Manufacturer thereby assigned subject only to such reservation as may be contained in such assignment. From and after the receipt by the Company of the notification of any such assignment, all payments thereafter to be made by the Company hereunder shall, to the extent so assigned, be made to the assignee.

In the event of any assignment by the Manufacturer of its rights to receive any payments under this Agreement, the rights of such assignee to such payments as may be assigned, together with any other rights hereunder which can be and are so assigned, shall not be subject to any defense, set-off, counterclaim, recoupment, or abatement whatsoever arising out of any breach of any obligation of the Manufacturer in respect of the Equipment or the manufacture, construction, delivery, guarantee or warranty thereof, or in respect of any indemnity contained in this Agreement, nor subject to any defense, set-off, counterclaim, recoupment, or abatement whatsoever arising by reason of any other indebtedness or liability at any time owing to the Company by the Manufacturer, and all payments thereafter to be made by the Company under this Agreement shall, to the extent so assigned, be made to the assignee against proper receipt therefor in form satisfactory to the Company. Any and all such obligations, howsoever arising, shall be and remain enforceable by the Company, its successors and assigns, only against the Manufacturer, its successors and assigns (other than assignees, as such, of rights, benefits and advantages assigned pursuant to this Agreement). The provisions of this paragraph may be relied upon by any such assignee as a continuing offer by the Company to waive any remedies which it might otherwise possess for the enforcement of any and all such obligations of the Manufacturer as against such assignee, which offer shall be conclusively presumed for all purposes to be accepted by the assignee by payment to the Manufacturer of the consideration for the assignment of any of the Manufacturer's rights under this Agreement.

ARTICLE 14. Assignments by the Company. (a) With respect to the Assignment, the Manufacturer hereby agrees to become a signatory thereto at the time the Company and the Lessor execute the Assignment and to be bound by the terms thereof.

(b) With respect to any assignment other than the Assignment and any rights, benefits or advantages of the Company under this Agreement not thereby affected, all or any portion of the rights, benefits or advantages of the Company under this Agreement, including, without limitation, (i) the right to accept delivery of the Equipment, the right to take title to the Equipment, and to be named the purchaser in the bills of sale to be delivered by the Manufacturer (ii) the right to receive any and all moneys due or to become due to the Company in respect of the Equipment and for all claims for damages in respect of such Equipment arising as a result of any default by the Manufacturer and for indemnification under Article 10 hereof and (iii) all rights of the Company to perform under this Agreement and compel performance of the terms hereof, may be assigned by the Company and reassigned by any assignee at any time or from time to time. Upon any such assignment, either the assignor or the assignee shall give written notice to the Manufacturer, together with a counterpart or copy of such assignment, stating the identity and post office address of the assignee (if not otherwise stated in the assignment), and such assignee shall by virtue of such assignment acquire all of the Company's right, title and interest in and to the rights, benefits and advantages of the Company thereby assigned subject only to such reservation as may be contained in such assignment.

Article 15. Defaults. In the event that any one or more of the following events of default shall occur and be continuing, to wit:

(a) The Company shall fail to pay in full, when due and payable hereunder, any sum payable by the Company as herein provided for indebtedness in respect of the Purchase Price of the Equipment or for interest thereon; or

(b) The Company shall, for more than 30 days after the Manufacturer shall have demanded in writing performance thereof, fail or refuse to comply with any covenant, agreement, term or provision of this Agreement on its part to be kept or performed or to make provision satisfactory to the Manufacturer for such compliance; or

(c) The Company shall make or suffer any unauthorized assignment or transfer of this Agreement or any interest herein or any unauthorized transfer of the right to possession of any Unit of the Equipment;

then at any time after the occurrence of such an event of default the Manufacturer may, upon written notice to the Company and upon compliance with any legal requirements then in force and applicable to such action by the Manufacturer, declare the entire indebtedness in respect of the Purchase Price of the Equipment, together with the interest thereon then accrued and unpaid, immediately due and payable, without further demand, and thereafter the aggregate of the unpaid balance of such indebtedness and interest shall bear interest from the date of such declaration at the rate of 10% per annum, to the extent legally enforceable, and the Manufacturer shall thereupon be entitled to recover judgment for the entire unpaid balance of the indebtedness in respect of the Purchase Price of the Equipment so payable with interest as aforesaid, and to collect such judgment out of any property of the Company wherever situated.

The Manufacturer may at its election waive any such event of default and its consequences and rescind and annul any such declaration by notice to the Company in writing to that effect. If at any time after such declaration all sums which shall have become due and payable by the Company hereunder (other than indebtedness which shall have become due and payable solely by reason of such declaration) shall be paid by the Company (with interest at the rate of 10% to the extent legally enforceable) before any sale or lease of the Equipment, and every other default in the observance or performance of any covenant or condition hereof shall be made good or secured to the satisfaction of the Manufacturer, or provision deemed by the Manufacturer to be adequate shall be made therefor, then, and in every such case, the Manufacturer shall waive any such event of default and its consequences and rescind and annul any such declaration. Upon any such waiver the respective rights of the parties shall be as they would have been if no such default had existed and no such declaration had been made. Notwithstanding the provisions of this paragraph, it is expressly understood and agreed by the Company that time is of the essence of this Agreement and that no such waiver, rescission or annulment shall extend to or affect any other or subsequent default or impair any rights or remedies consequent thereon.

If the Company shall make default as hereinbefore provided, then at any time after the entire indebtedness in respect of the Purchase Price shall have been declared immediately due and payable as hereinbefore provided and

during the continuance of such default, the Manufacturer, to the extent not prohibited by any mandatory requirements of law, may, upon such further notice, if any, as may be required for compliance with any mandatory requirements of law applicable to the action to be taken by the Manufacturer, take or cause to be taken by its agent or agents immediate possession of the Equipment, or any Unit thereof, without liability to return to the Company any sums theretofore paid and free from all claims whatsoever, and may remove the same from possession and use of the Company and for such purpose may enter upon the Company's premises or any other premises where the Equipment may be located and may use and employ in connection with such removal any supplies, services and aids and any available trackage and other facilities or means of the Company, with or without process of law.

In case the Manufacturer shall rightfully demand possession of the Equipment in pursuance of this Agreement and shall reasonably designate a point or points for the delivery of the Equipment to the Manufacturer, the Company shall, at its own expense, forthwith and in the usual manner, cause the Equipment to be moved to such point or points as shall be designated by the Manufacturer and shall there deliver the Equipment or cause it to be delivered to the Manufacturer; and, at the option of the Manufacturer, the Manufacturer may keep the Equipment on any railway lines approved by the Company until the Manufacturer shall have leased, sold or otherwise disposed of the same, and for such purpose the Company agrees to furnish or cause to be furnished, without charge for rent or storage, the necessary facilities at any point or points selected by the Manufacturer reasonably convenient to the Company. This agreement to deliver the Equipment and to furnish facilities for its storage as hereinbefore provided is of the essence of the agreement between the parties, and upon application to any court of equity having jurisdiction in the premises, the Manufacturer shall be entitled to a decree against the Company requiring specific performance hereof. The Company hereby expressly waives any and all claims against the Manufacturer and its agent or agents for damages of whatever nature in connection with any retaking of any unit of the Equipment in any reasonable manner.

If the Company shall make default as hereinbefore provided, then at any time thereafter during the continuance of such default and after the entire indebtedness in respect

of the Purchase Price shall have been declared immediately due and payable as hereinbefore provided, the Manufacturer (after retaking possession of the Equipment as hereinbefore provided) may at its election, to the extent not prohibited by any mandatory requirements of law then in force and applicable thereto, retain the Equipment as its own and make such disposition thereof as the Manufacturer shall deem fit (including, if the Manufacturer so elects, the leasing of the Equipment on such terms as it shall deem fit), and in such event all the Company's rights in the Equipment will thereupon terminate and, to the extent not prohibited by any mandatory requirements of law, all payments made by the Company may be retained by the Manufacturer as compensation for the use of the Equipment by the Company; provided, however, that, if the Company, within 20 days of receipt of notice of the Manufacturer's election to retain the Equipment for its own use, as hereinafter provided, shall pay or cause to be paid to the Manufacturer the total unpaid balance of the indebtedness in respect of the Purchase Price of all the Equipment which the Company has agreed to purchase hereunder, together with interest thereon accrued and unpaid and all other payments due by the Company under this Agreement, then in such event absolute right to the possession of, title to and property in such Equipment shall pass to and vest in the Company; or the Manufacturer, with or without retaking possession thereof, may at its election sell the Equipment, or any unit thereof, free from any and all claims of the Company, or of any other party claiming by, through or under the Company, at law or in equity, at public or private sale and with or without advertisement as the Manufacturer may determine, all subject to and in compliance with any mandatory requirements of law then in force and applicable to such sale, and the proceeds of such sale, less the attorneys' fees and any other expenses incurred by the Manufacturer in taking possession of, removing, storing and selling the Equipment, shall be credited on the amount due to the Manufacturer under the provisions of this Agreement. Written notice of the Manufacturer's election to retain the Equipment for its own use may be given to the Company by telegram or registered mail addressed to the Company at any time during a period of 30 days after the entire indebtedness in respect of the Purchase Price shall have been declared immediately due and payable as hereinbefore provided; and if no such notice shall have been given, the Manufacturer shall be deemed to have elected to sell the Equipment in accordance herewith.

To the extent permitted by any mandatory requirements of law then in force and applicable thereto, any sale hereunder may be held or conducted at such place or places and at such time or times as the Manufacturer may specify in one lot and as an entirety or in separate lots, and without the necessity of gathering at the place of sale the property to be sold, and in general in such manner as the Manufacturer may determine in compliance with any such requirements of law, provided that the Company shall be given written notice of such sale as provided in any such requirements, but in any event not less than 10 days prior thereto, by telegram or registered mail addressed to the Company. If such sale shall be a private sale permitted by such requirements, it shall be subject to the right of the Company to purchase or provide a purchaser, within 10 days after notice of the proposed sale price, at the same price offered by the intending purchaser or a better price. To the extent not prohibited by any such requirements of law, the Manufacturer may itself bid for and become the Purchaser of the Equipment, or any Unit thereof, so offered for sale without accountability to the Company (except to the extent of surplus money received as hereinafter provided), and in payment of the Purchase Price therefor the Manufacturer shall be entitled to the extent not prohibited as aforesaid to have credited on account thereof all sums due to the Manufacturer from the Company hereunder.

Each and every power and remedy hereby specifically given to the Manufacturer shall be in addition to every other power and remedy hereby specifically given or now or hereafter existing at law or in equity, and each and every power and remedy may be exercised from time to time and simultaneously and as often and in such order as may be deemed expedient by the Manufacturer. All such powers and remedies shall be cumulative, and the exercise of one shall not be deemed a waiver of the right to exercise any other or others. No delay or omission of the Manufacturer in the exercise of any such power or remedy and no renewal or extension of any payments due hereunder shall impair any such power or remedy or shall be construed to be a waiver of any default or an acquiescence therein.

If, after applying all sums of money realized by the Manufacturer under the remedies herein provided, there shall remain any amount due to it under the provisions of this Agreement, the Company shall pay the amount of such deficiency to the Manufacturer upon demand, and, if the

Company shall fail to pay such deficiency (with interest thereon at the rate of 10% per annum to the extent legally enforceable), the Manufacturer may bring suit therefor and shall be entitled to recover judgment therefor against the Company. If, after applying as aforesaid all sums realized by the Manufacturer, there shall remain a surplus in the possession of the Manufacturer, such surplus shall be paid to the Company.

The Company will pay all reasonable expenses, including attorneys' fees, incurred by the Manufacturer in enforcing its remedies under the terms of this Agreement. In the event that the Manufacturer shall bring any suit to enforce any of its rights hereunder and shall be entitled to judgment, then in such suit the Manufacturer may recover reasonable expenses, including attorneys' fees, and the amount thereof shall be included in such judgment.

In the event of assignments of interests hereunder to more than one assignee, each such assignee shall be entitled to exercise all rights of the Manufacturer hereunder in respect of the Equipment assigned to such assignee, irrespective of any action or failure to act on the part of any other assignee.

ARTICLE 16. Article Headings. All article headings are inserted for convenience only and shall not affect any construction or interpretation of this Agreement.

ARTICLE 17. Effect and Modification of Agreement. This Agreement and the Annexes attached hereto, exclusively and completely state the rights and agreements of the Manufacturer and the Company with respect to the Equipment and supersede all purchase agreements, purchase orders and other agreements, oral or written, with respect to the Equipment. No variation of this Agreement and no waiver of any of its provisions or conditions shall be valid unless in writing and duly executed on behalf of the Company and the Manufacturer.

ARTICLE 18. Law Governing. The terms of this Agreement and all rights and obligations hereunder shall be governed by the laws of the State of Illinois; provided, however, that the parties shall be entitled to all rights conferred by Section 20c of the Interstate Commerce Act.

ARTICLE 19. Successors and Assigns. As used herein, the terms Manufacturer, Company, Trustee and Les-

sor shall be deemed to include the successors and assigns of the Manufacturer, the Company, the Trustee and the Lessor, as the case may be.

ARTICLE 20. Recording. Upon the execution and delivery of this Agreement, the Company will, at its expense, cause this Agreement to be duly filed and recorded with the Interstate Commerce Commission in accordance with Section 20c of the Interstate Commerce Act, and wherever else required by law or reasonably requested by the Manufacturer for the purpose of proper protection of the security interest of the Manufacturer in the Equipment.

ARTICLE 21. Execution. This Agreement may be simultaneously executed in any number of counterparts, each of which so executed shall be deemed to be an original, and such counterparts together shall constitute but one and the same contract, which shall be sufficiently evidenced by any such original counterpart. Although this Agreement is dated for convenience as of the date specified in the introductory paragraph of this Agreement, the actual date or dates of execution hereof by the parties hereto is or are, respectively, the date or dates stated in the acknowledgments hereto annexed.

IN WITNESS WHEREOF, the parties hereto, each pursuant to due corporate authority, have caused these presents to be signed in their respective corporate names by duly authorized officers and their respective corporate seals to be hereunto affixed and duly attested, all as of the day, month and year first above written.

Annex C  
to the Manufacturing Agreement  
with Bethlehem Steel Corporation

ASSIGNMENT OF MANUFACTURING AGREEMENT  
dated as of October 27, 1975, among TRAILER  
TRAIN COMPANY (hereinafter called the  
Assignor), BETHLEHEM STEEL CORPORATION (here-  
inafter called the Manufacturer) and UNITED  
STATES TRUST COMPANY OF NEW YORK, as Owner  
Trustee under a Trust Agreement dated as of  
October 27, 1975, with General Electric Credit  
Corporation (hereinafter called the Assignee).

WHEREAS the Assignor has entered into an agreement dated as of October 27, 1975 (hereinafter together with any supplements and amendments to the date hereof, being called the Manufacturing Agreement) with the Manufacturer, pursuant to which the Assignor has agreed to purchase and take delivery of certain railroad equipment;

WHEREAS the Assignee has entered into a Participation Agreement (hereinafter called the Participation Agreement) dated as of October 27, 1975, among the Assignor, General Electric Credit Corporation and certain institutional purchasers and has entered into an Equipment Trust Agreement (hereinafter called the Equipment Trust Agreement) dated as of October 27, 1975, with Mercantile-Safe Deposit and Trust Company, as Trustee (hereinafter called the Trustee); and

WHEREAS the Assignee desires to purchase and take delivery of those units of such railroad equipment described in Item 1 of Schedule A hereto as are delivered and accepted pursuant to the terms hereof on or prior to December 29, 1975 (such units being hereinafter called the Assigned Equipment and such date being hereinafter called the Cut-Off Date), and the Assignor agrees to assign its rights to purchase and take delivery of the Assigned Equipment to the Assignee.

NOW, THEREFORE, in consideration of the mutual covenants and agreements hereinafter set forth, the parties hereto hereby agree as follows:

1. The Assignor hereby assigns, transfers and sets over unto the Assignee, its successors and assigns:

(a) all the right, title and interest of the Assignor in and to the Assigned Equipment; and

(b) all the right, title and interest of the Assignor in and to the Manufacturing Agreement, in so far as it relates to the Assigned Equipment.

2. The Assignee accepts the assignments herein contained, and assumes the obligations of the Assignor under the Manufacturing Agreement to purchase the Assigned Equipment and agrees to pay for the Assigned Equipment as provided in the Manufacturing Agreement and the Equipment Trust Agreement, subject to compliance by the Manufacturer with the provisions of the Manufacturing Agreement relating to construction, delivery and acceptance of Equipment under the Manufacturing Agreement, including without limitation, Articles 1 through 4 thereof, but the Assignee assumes no other duties or obligations of the Assignor under the Manufacturing Agreement whatsoever; provided, however, that the Manufacturer shall not deliver any unit of the Assigned Equipment hereunder subsequent to, and the Assignee and the Trustee shall have no obligation to purchase and pay for any unit of the Assigned Equipment not delivered prior to, receipt of a written notice from the Assignor, the Assignee, the Trustee, any Purchaser or the Owner (as the terms Purchaser and Owner are defined in the Participation Agreement) notifying the Manufacturer of (i) the commencement of any proceedings specified in clause (e) of Section 6.01 of the Equipment Trust Agreement, (ii) the occurrence of any Event of Default as described in Section 6.01 of the Equipment Trust Agreement or § 10 of the Lease, or event which with lapse of time and/or demand, could constitute such Event of Default, (iii) the material falseness of any of the representations and warranties of the Lessee made by it in Paragraph 3 of the Participation Agreement at and as of the time such representations and warranties were so made or (iv) the fact that any of the conditions contained in Paragraphs 7 and 8 of the Participation Agreement have not been met or waived. In addition, the Manufacturer shall not invoice any unit of the Assigned Equipment hereunder delivered subsequent to, and the Assignee shall have no obligation to purchase and pay for any unit of Assigned Equipment not delivered prior to, (i) the time at which the aggregate Purchase Price of the Assigned Equipment delivered hereunder exceeds the maximum purchase price set forth in Item 2 of

Schedule A hereto or (ii) the Cut-Off Date. The Assignor affirms hereunder that it shall be solely obligated to purchase and pay for pursuant to the Manufacturing Agreement any unit of the Assigned Equipment which is excluded from this assignment because (A) delivered after the Manufacturer shall have received any notice described in the first proviso to the first sentence of this Paragraph 2 or (B) such maximum purchase price is exceeded or such unit is delivered after the Cut-Off Date, but the Assignor shall have no obligation to the Manufacturer to purchase, or make payment under the Manufacturing Agreement in respect of, any Assigned Equipment which the Assignee is obligated to purchase hereunder. The Manufacturer hereby consents to the terms of this Assignment and accepts all its duties hereunder, including, without limitation, its duties as to termination of deliveries and the limitation of the obligations of the Assignee and the Trustee to purchase and pay for the Assigned Equipment as set forth in this Assignment.
